## MASTERS GATHER TO CHANGE THE GAME

Soul Tech is a collaborative undertaking brought to you by FadeToBlack and Modern Masters.

We'd like to give you an idea of what you can expect over the next few days.

Soul Tech is a different kind of conference in that we want to share real skills that could empower all of us.

Soul Tech is built around a main lecture, and handful of intimate workshops offered each day .

Remember that your workshops are an integral part of the Soul Tech experience, so don't miss the chance to be up close and personal with our phenomenal speakers.

In order to keep the experience intimate and hands-on, we've created a rotation system where half of Soul Tech participants will partake in a large-form lecture in the morning and workshops in the afternoon.

Meanwhile, the other half of participants will do the opposite: engaging in workshops in the morning and a long-form lecture in the afternoon. Don't forget to make note of which rotation you're in so you don't miss a thing!

We've purposely allowed for substantial free time in order to hold space for meditation and processing the information and skills you've learned.

Please, use this time to enjoy meals together, explore ECETI, relax, watch the sky, and have great conversations.

We hope you will come away empowered, uplifted, re-connected, and with a fresh take on the world around us and your place in it.

## Laws of the Land

ECETI is the creation of James Gilliland.

James' home is a spectacular setting to experience UFO contact with spiritually and technologically advanced extra-terrestrial beings.

It's an enchanting refuge where people come to seek answers, hear the voices of ethereal guides, and re-connect to the benevolence found in this type of energetically-charged, natural environment.

Soul Tech is grateful to be a part of this beautiful space for our festival weekend. Along with our gratitude, we're committed to operating with limited human impact.

We hope that all participants will honor the ranch, the beings who dwell there, and the all-volunteer crew by being mindful, and by following the rules of the ranch.

## Ranch Rules:

1. No alcohol or drugs, including cannabis.
2. No open fires. There is a burn ban in effect in August in Washington State. Propane cook stoves are ok.
3. If you've brought children with you, please be mindful of them. They're your responsibility.
4. If you have trouble with the gate at any time, please call for help. Don't try to open it yourself.
5. If the fairies take your things, ask politely to have them back.

Welcome to ECETI Ranch

We believe that life should be measured in experiences.

Experiences, that widen the borders of our minds and souls,  
experiences that connect and unite, open doors, and create and hold space where  
our human potential shines and our creative forces thrive.

The next 3 days were designed to help you find answers and discover new directions.

Learn new information and skills. Meditate. Take walks. Share meals. Laugh.

Have conversations. Watch the skies and walk the land.

Wake up to the creative power within you.

Hold that space. Always.

## ECETI FIELD OF DREAMS

Sky Watch starts about 30 minutes after sunset

An astronomical new moon represents the start of a new lunar cycle. During this phase the moon and the sun are at the same longitude, the moon lacks illumination and appears invisible in the night sky. In many traditions around the world, the new moon phase signifies a time where people set new goals, refresh their direction, and look forward to new possibilities in their life.
